## Powerful Lisa 20 Mb System Now it's as good as a MacPlus!

This Lisa has an incredible secret. It's a powerful hybrid of the original Lisa business computer ... and the popular Mac Plus, with its wide variety of capabilities and software applications.

Originally designed as a versatile business computer, the Lisa features an extra-large 12" screen, a numeric keypad, an easy-to-use mouse and a wide range of business applications and software.

And now you can also enjoy the full benefits of a Mac Plus on your Lisa ... thanks to the improvements Sun Remarketing technicians have made. This Lisa comes with ...

- Sun Remarketing's unique MacWorks Plus software, letting your Lisa handle about any Mac Plus software or function. (Including: MultiFinder, Excel 2.2, AppleShare, WordPerfect, Aldus Freehand 2.0 and Cricket Draw — to name a few.)
- 1 megabyte of RAM.
- 800K internal floppy drive.
- Internal 20 megabyte hard disk.
- SCSI port to attach hard drives, modems, scanners, etc. (SCSI card not included, see p. 2 of this catalog.)
- Macintosh graphic interface.

Savings

# Macintosh Plus

## Macintosh lovers will love this low price!

Power. Versatility. Easy to use. Simple to learn. These are the hallmarks of the Macintosh family. And the Macintosh Plus system gives you all these benefits at a low, low price.

Macintosh Plus is completely compatible with other Macintosh hardware and software, letting you share files between systems. At home or work, by itself or as part of a network system, Mac Plus gives you superb performance. Ideal as an entry level computer ... an additional work station ... for students ... a home computer ... or whatever you need.

- Built-in monitor.
- Keyboard and mouse included.
- 1 Mb RAM (expandable to 4 Mb).
- 800K built-in disk drive.
- MultiFinder multitasking operating system (allows you to use multiple applications concurrently).

- SCSI port (supports up to 7 SCSI peripherals).
- Accepts a wide variety of peripherals for expanded applications.

**Retail Value:**

**\$1799**

## Macintosh 512K, 512KE and 512KE/Mac Rescue

Enjoy the powerful, but easy, Macintosh format ... at prices more affordable than ever. Here are three exciting systems, all discounted to amazingly low prices. All include keyboard and built-in monitor.

### Macintosh 512K

- 512K RAM
- 400K internal drive (single-sided disks)
- 64K ROM

### Macintosh 512KE

- 512K RAM
- 800K internal drive (double-sided disks)
- 128K ROM (uses HFS — Hierarchical Filing System — a hard disk management system.)

### Macintosh 512KE/Mac Rescue (Mac Plus compatible)

- A full 1 Mb of RAM
- 800K internal drive
- 128 ROM
- SCSI port for up to seven peripherals (including additional drive, hard disk, scanner, modem, etc.)

## MacWrite/MacPaint

Here are the two most popular Macintosh software programs combined in one, super-low-priced package.

- MacWrite is easy-to-use word processing, including global search and easy-to-use formatting. (This is not the latest version, but it's a terrific buy that can easily be upgraded.)
- MacPaint is the graphics program acclaimed by many as still the best free-hand graphics tool.
- Both programs are shipped new, with full documentation. **SN 410-011**

Retail Value: \$195 Sun Special: **\$39** (\$4.17 shpg)

**Save 50%**

## MacNet

The ideal networking program for Mac and Lisa users. (Also connects you with DOS users.) No matter where in the world you are, a local phone call connects you with MacNet.

- Send or receive files via the exclusive Connect<sup>SM</sup> service to and from any place in the world ... on a *local* phone line.
- Gives you access to bulletin boards, electronic mail and information centers.
- Requires minimum Macintosh 512KE capabilities.
- Includes everything you need to get started (except the Mac and modem).

Prices slashed up to \$4,124!

# Macintosh II

## Your powerful Mac option...

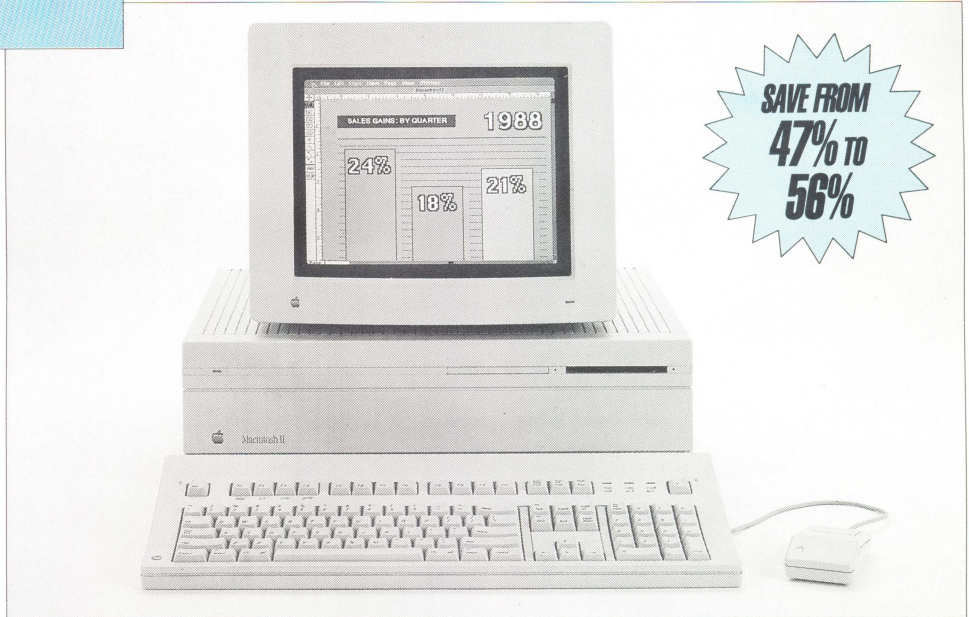

Do you want a system with maximum versatility? Maximum expandability? Maximum overall power? If so, then the Macintosh II is for you.

And now, the Mac II also gives you maximum savings ... up to \$4,124 off Apple's suggested retail price!

The Macintosh II delivers incredible high performance in a compact format. You'll enjoy fast program execution, minimum delays, easy multitasking, and memory capacity that can be expanded up to 8 megabytes of RAM.

The Macintosh II is compatible with other Macintosh systems and applications. Its wide variety of functions and options lets you create virtually any hardware configuration you'll ever need.

- 1 Mb RAM (expandable to 8 Mb).
- Advanced graphics capabilities.
- 800K floppy disk drive (can be expanded to include a second internal drive).

SAVE FROM  
47% TO  
56%

- 6 internal NuBus expansion slots (for options such as network interfaces, video, memory, etc.).
- 2 Apple Desktop Bus ports for peripherals.
- SCSI interface (supports up to 7 additional peripherals, including hard disk, printer, modem, scanner, etc.).
- Supports your choice of monitors — high-resolution color, monochrome, RGB or portrait display (sold separately, see back cover for monitors).
- Compatible with your choice of standard or expanded Macintosh keyboards (sold separately, see back cover for keyboards).
- 90-day warranty.

## Macintosh SE Compact...Portable... Expandable.

The Macintosh SE gives you the portability of a Mac Plus — and nearly the expandability of a Mac II.

This compact system is surprisingly powerful and versatile. Although it looks like the traditional Macintosh computer with its small footprint and built-in monitor ... everything inside has been redesigned and upgraded to give the SE greater speed, multitasking capabilities, functional variety, and peripheral device support. Fully guaranteed.

- 1 Mb RAM (expandable to 4 Mb).
- Advanced graphics capabilities.
- Built-in monitor.
- 800K floppy disk drive .
- 1 internal NuBus expansion port (for options such as network interfaces, video, memory, etc.).
- 2 Apple Desktop Bus ports for peripherals.
- SCSI interface (supports up to 7 additional peripherals, including hard disk, printer, modem, scanner, etc.).
- Compatible with your choice of standard or expanded Macintosh keyboards (sold separately).
- 90-day warranty.

# Give your Mac SE the advantages of MS-DOS software compatibility... with the powerful AST Mac86

Save \$400

LESS THAN HALF PRICE

Sun Regular Low Price: \$699 Sun Special: \$299 (\$5 shpg)

Take your Macintosh SE into the world of MS-DOS. With AST Mac86, you can run virtually any of the top 100 MS-DOS application programs.

Now you can copy and paste text and graphics from MS-DOS files to your Mac SE applications ... and vice versa. What's more, you can actually run MS-DOS software programs on your Mac SE.

Mac86 is not simply a file transfer product. It's an incredible expansion to your system, giving you the combined power of the world's two most popular computers. Power to run Lotus 1-2-3, dBASE, and much more. There simply is no other DOS expansion product that offers so much.

- Creates compatibility on your SE with virtually any MS-DOS application.
- Copy and paste MS-DOS text and graphics in Mac SE applications ... and vice versa.
- Enjoy compatibility with popular MS-DOS programs, including dBASE, Lotus 1-2-3, WordPerfect, and more.
- Pull-down menu provides mouse access to IBM function keys.
- Seamless mouse operation — toggle back and forth for either Macintosh or MS-DOS mouse functions.

- Functions as an IBM PC XT in MS-DOS mode.
- Enjoy point-and-click access to DOS programs.
- Move files back and forth freely between Macintosh and MS-DOS environments.
- Print DOS files on your LaserWriter or ImageWriter.
- Store DOS files on your same Macintosh hard disk.
- Supports many varieties of disk drives and network systems.
- Two year warranty.

Note: Mac86 is compatible with any MS-DOS application, *except* applications requiring special hardware (e.g., applications requiring a parallel port for copy protection). However, COM1 and COM2 serial ports are emulated through the Mac SE's two serial ports.
