# ALADIN

This powerful management information system is so flexible it actually works the way you work! Keeping track of information in today's business world requires a data manager that can perform efficiently. Aladin is easy to use. And it is menu driven which allows you to make the choices you need to get your work done fast!

- INSTANT ACCESS to any of two million records in one second
- "WILD CARD" function allows record searches with just fragments of original record entries
- UNLIMITED search and sort schemes
- CALCULATES character or numeric data, invoicing and forecasting
- ONE DISK FOR ALL! Database management, calculation, query, report, grouping and statistic.
- SECURE! No more than one record lost during power failure. Full password security for individual functions.
- INTEGRATES with most any software program. WordStar™, Multiplan™, Lotus 1-2-3™, dBase II™...and many more!

These describe just a few of the many ways ALADIN's powerful features can work for you! Whatever projects you use ALADIN for, you've got the tools you need to manage information efficiently, comprehensively and productively! And that's the bottom line.

## Want References?

"ALADIN is...a relief for those nervous about taking charge of a complex and powerful price of software."

- The Book of IBM Software

"...with its unprecedented power and flexibility, it would be a shame if consultants, problem-solvers, decision-makers, etc. overlooked this package and purchased separate, more expensive packages which failed to keep up with ALADIN standards."

- The Book of Apple Software

IBM and Prentice Hall are bringing ALADIN to higher education through the IBM-PC Apprentice Series to educate students on database management uses in real-world business situations.

"The data selection capability of ALADIN is remarkable."

- PC Products

"Your ALADIN database program is extremely powerful and user-friendly which has allowed us to utilize it's capabilities in several of our manufacturing environments...we were able to reduce report retrieval from 20 hours down to less than 5 minutes...Keep up the great work!"

- Toni M. Uribe  
Service Support Quality  
Information Systems Manager

"I don't know any other words to describe this package but - POWERFUL"

- On Three Magazine

### WHAT COMPUTER WOULD YOU USE ALADIN ON?

- APPLE II, IIc, IIe
- APPLE III
- DEC 350, RAINBOW
- IBM PC, XT, AT OR COMPATIBLE
- SAGE II, IV
- TI PRO
- VICTOR 9000
- OTHER

### WHERE WOULD YOU LIKE TO PURCHASE OR SEE A DEMO OF ALADIN?

I AM ALSO INTERESTED IN INFORMATION ON PROGRAM GENIE, THE PROGRAMMERS TOOL KIT ALADIN DATABASES FOR:

- IN-HOUSE APPLICATION PROGRAM ADAPTION
- VERTICAL PACKAGE DEVELOPMENT FOR RESALE
